

Saint Catherine of Siena

On April 29 we celebrate the life of Saint Catherine of Siena. At seven years old, Catherine devoted her life to God. She helped people who were poor, served people who were sick, and comforted prisoners. Catherine was also very concerned about world peace. She prayed daily for peace and wrote many letters to Church and government leaders. Saint Catherine shows us how even young children can make a difference and lead saintly lives.

How can you become more saintly?

What saintly things are you already doing in your life?
