

St. Catherine of Siena gave her life to God. She became a nun at age 16. She spent most of her time praying and serving God. She took care of the sick and helped spread peace within the Catholic Church. Everyone she met, including two popes, respected her wisdom, courage, and holiness. We celebrate her feast day on April 29.

St. Catherine and St. Francis are the patron saints of Italy. Connect the dots to see what Italy looks like.
